THURSDAY, JANUARY 22, 1891.

Telegrams.

(By Havas Agency)

Paris, 20th—The celebrated composer, Leo Delibes, died yesterday at the age of 55. Thousands attended his funeral which was held with great pomp.

London, 21st- Owing to the revolution in Chile the English and French Governments have ordered several of their gunboats to start immediately for the West Coast to protect their interests.

Brussels, 21st—The workmen's meeting, spite of the fears entertained, passed off peaceably. Not the slightest disturbance was reported.

Rio, Jan. 21st—The first reading of the Constitutional Bill was approved with slight modifications. Several acts of the Minister of the Interior and Agriculture were severely censured by Congress, and it is owing to this that the Ministry sent in their joint resignation. As Marshal Fonseca has up to date taken no notice of their resignation, the Ministers still carry on business.

Señor B. Constant continues seriously ill, and little hope of his recovery is held out.

Montevideo, 21st—The loan with Brazil is said to be an accomplished fact.

Here there is great anxiety to know what side will be taken by the commander of the Chilian corvette Almirante Condell, which arrived last night from St. Vincent, where he first received the news of the revolution. The Almirante Condell will leave this week for the Pacific.

The Magellan, which is hourly expected, has not yet arrived. It is said she brings £200,000 for the Government.

Weather hot.

The Venus left this evening for Buenos Ayres.

THE TAX CRISIS.

The new Tax Bill now passed by Congress has so many ramifications that it will take some time before either the public understand it, or even the tax-collectors know well the nature of their duties.

A more unpopular Bill was never passed in this or any other country, and it is to be hoped that at the meeting of Congress next May the law will be altered or rescinded, in order to extricate the country and its trade from the unheard-of difficulties which it creates.

According to the reading of Article 9 of this law, all companies will be obliged to send in to the Caja de Conversion in the month of February a sworn general balance sheet of their business of the previous year. Some opposition was made in the Senate to this article, on the ground of its being unconstitutional, but the Article was passed with but a trifling alteration. Now the point to consider is, whether or not the various joint-stock companies will be bound to send a report in next month of last year's business. It appears to us that as no law can have a retroactive effect, the companies will not have to present their balance sheets until February next year; but some parties come to the contrary, and insist that they must all present their balance sheets next month, otherwise the managers of said companies will incur both fine and imprisonment.

Our colleague *La Prensa* published yesterday a very able article defending the private banks and foreign capital; and we much regret that owing to its length we are unable to reproduce it. The article in question was read by everyone and met with universal approval. It is indeed a reproach that in the Senate no such able exposition of the errors of this tax bill was made, which goes to show that there is more talent in the newspaper office than in Congress. Our colleague most truthfully remarked, "that the credit of some of the private banks has increased in the last few years in the same ratio as that of the official banks has decreased;" and yet Congress seems to overlook this solemn fact, and with a view to restore the deposits of the public to the official banks imposes a tax which offends the spirit of our laws and our Constitution.

Since this most unpopular of bills has become law, it is useless to offer any further comment on it, but the great difficulty which threatens is, that these taxes will not yield the amount estimated, and hence the impending dilemma of some future effort to make good the deficit.

THE CHILIAN REVOLUTION.

OCCUPATION OF PISAGUA.

IMPORTANCE OF THE PORT.

CHILIAN WAR VESSELS IN THE PLATE.

THE BLOCKADE AND THE FOREIGN POWERS.

Following up on the news we published yesterday, we may state that, according to the appended telegram, the revolutionists have seized Pisagua, an important port, from which the Government derive a very considerable revenue. The taking of Pisagua stamps the revolution as a civil war, and Chile is now on the road to collapse, unless an encounter soon take place to decide the struggle between Mr. Balmaceda and the representatives of the Chilian people, in the course of which struggle Peru may step in and claim its lost provinces.

Pisagua, was formerly in Peruvian territory. According to the trade-report published last year, its exports amounted in 1889 to 15,500,000 dollars, being an increase of one million on the figures of 1888, which shows how the town has progressed. Pisagua stands third by its trade of importance amongst the 14 ports of Chile. Iquique, which is at present being blockaded by the revolutionists, occupies the second rank; its exports being over 22 million dollars. The shipping trade of Pisagua may be measured by the following table:—

Year	Tonnage vessels entered	Tonnage vessels left
1888 ...	561,205	583,011
1889 ...	673,895	684,457

The Government of Chile derives a revenue of ten millions per annum from the trade of Pisagua. The trade-returns of Chile in 1889 were:—

	$
Imports	75,605,993
Exports	68,760,406

The exports shew a falling-off of seven millions on the figures of 1888. However, our readers will gather from the foregoing figures what an important role Pisagua has in the commercial development of Chile, and how advantageous its occupation must prove to the revolutionists.

The following is the telegram announcing the occupation of Pisagua:—

Santiago, Jan. 20th.

The revolutionary forces endeavored to land at Caldera under the protecting fire of the fleet, but were repulsed by the Government troops. The Magallanes, in view of this repulse, steered north, while another vessel kept up a sharp fire at the Government troops, thus distracting the latter's attention. The Magallanes arrived yesterday at Pisagua, where a group of miners had risen against the authorities, and soon was in communication with these volunteer revolutionists, with whose assistance the authorities were driven out and the town occupied. The garrison—a detachment of soldiers—went over to the revolutionists.

Great anxiety here to know how Iquique is faring. It is thought it will fall into the hands of the revolutionary forces.

Pisagua is the principal outlet for the export of nitrate of soda, iodine, phosphates, etc., from the territory of Tarapaca; it has a population of twelve to fifteen thousand souls, but has not been fortified since the close of the West Coast War, which began in 1879 and was concluded with the battle of Chorillos and occupation of Peru. In the year 1879 Pisagua, then in Peruvian territory, was one of the first points attacked by the Chilian fleet. The Chilians seized it after a bloody engagement in April, 1879. Since then it has been under Chilian rule and has progressed in a wonderful manner.

It is very likely that Iquique will fall in a day or two. Here we may remark that during the stormy parliamentary events that preceded the revolution in Santiago, President Balmaceda sent all the more or less disaffected troops to the North of the Republic. It is, therefore, probable that all these troops will join the revolutionary cause and a long civil war may ensue. The silence of the telegraph, under the control of the Government, is very ominous; for were the Government to obtain any victory, the news would be immediately flashed across the Andes. As matters stand, it may be assumed that the revolutionary movement is spreading and gathering force every day and that the Government is still on the defensive.

The blockade declared by the revolutionary fleet will give rise to some interesting diplomatic conflicts. If the foreign powers protest, they can only defeat the blockade by violence and they must prepare to send naval forces of some importance to the scene of action, as the Chilian fleet is more than a match for all the foreign warvessels stationed on the west or east coast of this continent. And will the foreign powers concede to the Chilian revolutionists the status of belligerents? It must be remembered that this Chilian conflict is a constitutional revolution, and we may question the authority of President Balmaceda to declare the fleet outlawed and piratical. The Confederate forces in the War of the Union were considered belligerants and the Chilian rebels, we think, are entitled to the same classification.

The conflict in Chile to-day cannot be compared to or viewed in the same light as the Piorola revolution in Peru which led the Government to declare the Huascar outside the pale of the law. Great Britain, it will be remembered, in an unfortunate moment, availed of that declaration to set the Shah and Amethyst at the heels of the piratical Huascar, with what results we all know. The Shah ran a very narrow risk of being rammed and sent to the bottom with Admiral Horsey and five hundred men on board. We doubt very much if any foreign power be inclined to repeat that experiment with the fleet of Chile to-day.

The fine new Chilian war-vessel the Almirante Condell is now in Montevideo; she will soon be joined by other Chilian ironclads recently built in England. All these new vessels will naturally be under the orders of the Chilian Minister in the Plate. They will be of little use to President Balmaceda, as they can be only half-manned and could not tackle the revolutionary fleet; they would, however, be invaluable to the revolutionary squadron, which they very probably will join. This riddle is not yet solved; but its solution will be known in a few days.

MUNICIPAL BUDGET.

Our active Lord Mayor has just laid before the Corporation the estimates of revenue and expenditure as amended by him. Mr. Bollini's amendments mean an increase of 132,600 dollars in the municipal expenditure, and his reasons are that if the Corporators economise by cutting down the salaries, or for that matter suppressing many salaries of tax-collectors, there will be a falling off in the collection of taxes. This is very sound logic indeed, and we are quite willing to concede that, if the corporators suppress the taxgatherers, there would be no taxes collected. But 132,600 dollars of an increase is by no means an insignificant item. If it all go to the distinguished body of tax-collectors, the zeal of these gentlemen would be strengthened to such a degree indeed that possibly they might endeavor to persuade the unfortunate tax-payer to pay five or six years in advance. Our readers may imagine that the life of the tax-collector is one of hard work. Not at all. He does not tramp round the town to collect money or call on the tax-payer. In fact, he is no tax-collector. He sits behind a desk and receives the money from the tax-payer, who does the tramping part of the business.

The Lord Mayor goes on to say that without hard-working, honest, conscientious employees no administration can be successful, and if he needed examples and illustrations of his statement, we are certain he would not have far to go. We cannot, however, weary our readers by dwelling on this point; and all we can say is that we are very glad the Lord Mayor has not proposed to pay his employees their salaries in gold.

The following table, quoted by the Lord Mayor, as a proof of the necessity of accepting his amendments, shews the tendency of the Municipality to spend money, to fly off at a tangent from the orbit of sound working.

EXPENDITURE (EXTRAORDINARY.)

Year	Estimated	Modified	Spent
1880.....	$ 32,000	32,500	53,786
1881.....	32,000	90,335	122,335
1882.....	72,000	35,038	107,437
1883.....	124,999	94,772	219,949
1884.....	125,000	48,330	157,538
1885.....	135,000	176,715	312,133
1886.....	100,000	262,516	362,550
1887.....	100,000	2,460,881	2,560,881
1888.....	200,000	1,189,860	1,308,432
1889.....	100,000	8,193,401	8,215,218
1890.....	50,000	180,695	230,169

$100,000 voted in 1889 and over eight millions spent!!! No wonder we are steeped in a terrible crisis.

The Municipality owes in bills at the present moment no less than $3,653,430 paper and $301,975 gold. Of course, to pay these amounts is out of the question, and the Lord Mayor, very properly, wants to pay the interest, which he calculates at $200,000.

The Lord Mayor, in his message to the Corporation, holds out the comforting hope that, in spite of the proposed increase he will be able to economise $80,000 in the Limpieza Service, and a very considerable sum in drugs and medicine. In 1889, the Municipality paid $200,052 for medicine, enough to poison half a dozen cities like Buenos Ayres; but last year, from June to December, the amount spent under the heading Medicine was only $22,000, a healthy falling off.

But, although the Lord Mayor talks of economising, while asking for an increase of $132,600, he in reality asks for an increase of over one million dollars, counting the service on the municipal debts to the banks, which service makes up the bulk of the increased expenditure. The $132,600 is only the thin end of the proposed increase.

CONGRESS.

SITTING OF THE SENATE.

The honorable Senators, summoned to meet at 9 a.m., managed to form a quorum at half past ten. The delay was occasioned by the Finance Committee, which only finished its report on the loan bill at ten o'clock. As the honorable gentlemen sat down, Dr. Dorqui in the Chair, the Secretary read out the proceedings of the previous sitting; after two alterations or corrections made by Senator Rojas, the minutes of yesterday's sitting were approved, and the Order of the Day was taken up.

The Order of the Day comprised the report of the Financial Committee on the Loan Bill. It was agreed that the Report should be printed and debated to-day. The House is summoned to meet at 9 a.m. to-day.

The Senate will hold a secret sitting to-day. It was understood that the Executive had sent in a special message in connection with certain requests on the part of a neighbouring power, affecting some questions of international neutrality. Nothing beyond surmise transpired.

The Deputies did not meet yesterday.

INSURANCE TAXES.

Buenos Aires, Jan. 20th 1891.

To the Editor of the STANDARD.

Dear Sir,

I have no desire to enter upon a discussion as to the merits or demerits of the new taxation laws, which, if put into force, will deprive the country of its share in the enormous benefits which the great American life Insurance Companies confer upon the whole civilized world; but I crave a portion of your valuable space, in order to point out to the public, and perchance to the Government, that it is the form of the taxation more than the taxation itself which will compel the Equitable and New York Life to retire from this field of opeatrions.

The professed object which Minister Lopez has in view is to oblige the foreign insurance Companies to "radicarse" in this country, and and to prevent the withdrawal of capital in any form from the country. If the Minister had deigned to call into his august presence the managers of the American Companies, they could have told him how to attain his object without taxing to excess the savings which fathers of families make for the said families by insuring their own lives.

The present form of taxation, and the vexatious red tape attached thereto, must cause all the onus thereof to fall upon the policy holders, who would, if the companies continued business, pay everything, except the guarantee of 100,000 dollars required by Government, and thus life insurance, in really responsible and provedly solvent companies, would become too heavy a burden for the great majority of men.

Now, suppose that instead of the 100,000 dollars guarantee, the Government were to demand that the American companies bring this or even a larger amount of capital into the country to be invested either in bonds or in real estate; and suppose that instead of 7 o/o on all premiums and renewals, which simply makes life insurance impossible, the were to put a tax of 3 o/o on all premiums and renewals actually remitted from the country, what would be the result? The American companies might or might not withdraw, but they certainly would not be able to say with truth, as they can to-day, "We must withdraw, because the Government, in violation of Art. 4 of the constitution, and of Art. 10 of the commercial treaty with the United States, tax us so unfairly, and to such an extent, that we cannot pursue our business to the benefit of our policy holders in the Argentine Republic, who are our only shareholders."

Instead also of making a "patente" tax of $10,000 for Buenos Ayres city only, why not create a stamp tax of say $1 per mil on the amount insured on each policy issued by every life company in the country, native or foreign? No complaint of unfairness could then be raised, and as the American companies would be as solidly "radicated" by the capital treated of above and by the tax on remittances as the native companies, it is evident that the stamp tax should bear on all companies alike.

Some such solution as the above would certainly remove all just cause of complaint on the part of the American companies, and would fulfil the professed object of the Government without raising questions of inconstitutionality and unfair dealing.

The taxes in their present form will almost certainly drive the American Companies out of the field, and the only possible gainers will be the so-called National joint-stock life Companies; the nation will lose the immense benefits of solidly responsible life insurance, and the Government will lose not only the taxes they pretend to impose, but also the greater portion of the assistance which, indirectly, every Government receives from life insurance associations, and this is easy of demonstration.

At the present time, and speaking roughly, the Equitable and New York Life have some 3,500 to 4,000 policies held in this country, representing some "25" to "30" millions of dollars of life insurance, millions which "must" all come into the country, for even policy-holders "must" die some day. The Government by ejecting the American Companies and putting difficulties in the way of payment of premiums, will cause a large amount of insurance to be dropped by the holders, and this will be just so many millions lost to the country sooner or later.

There are very few men in the Argentine Republic who know anything or care anything about life insurance, and probably still fewer who understand its importance as a scientific factor in social, aye, and political economy; but I firmly believe that if Minister Lopez would give a little of his valuable time to its study, he would do everything in his power to foster the growth of life insurance in the Argentine Republic, and would welcome the world-wide American Companies, instead of driving them away as he is now doing.

I purposely avoid, in this letter, which is already too long, any comparison between universal and local life insurance Companies, which deserves a chapter to itself; and should the suggestions I have put forward meet the eye of those in power, and merit their consideration, my present object will have been attained.

Yours truly
Policyholder.

THE BELGRANO SWIMMING BATHS.

FAIR PLAY.

Strange news comes to us from gay and fashionable Belgrano, where a Municipal Inspector, dressed in a little brief authority, actually called on Señor Bollini, our brand new Intendente, to shut up the swimming baths, which may truly be said to have done more for the health, wealth and prosperity of this dear old suburb than all the Municipal inspectors that ever were born, not to mention all that have died, and many of whom may, for all we know to the contrary, be even now purging their offences against truth and justice in that black eternal region whose chief component part is by all accounts and traditions so diametrically opposed to that limpid element of which the best baths, hot or cold, are usually, if not invariably, composed. In fact, but for this great grand fact, fresh water might be voted a nuisance, thus affording speculators a rare chance for the immediate formation of bubble companies fo set the River Plate on fire, pump San Blas harbour dry, or divert the course of the Paraná with a pitchfork. What would then become of the milkmen? How many worthy Basques' occupation, if not reputation, would then be gone!

The company are justly incensed at so unjustifiable an attack upon their property, and "vile calumniator" was about the mildest epithet that I heard applied to the over zealous functionary. Nor is such natural indignation to be wondered at, seeing that those baths, which are acknowledged to be the best South of the Line, with the exception of those at Montevideo or Mar del Plata, are worked absolutely and entirely, year after year, "pro bono publico;" the charges being so low and the expenses of keeping the place in first-rate order so high, that for eight years or more since its inauguration, the reckless shareholders have never received a cent in the shape of dividend or interest on their capital. In these hard times it is not everyone that can afford to take his family to the seaside for the season, and so well does the Belgrano establishment meet the public requirements in this particular, that we feel certain it would be filled daily, even though the charges for entrance, towels, pants, etc., were doubled, aye, or even trebled, for that matter. This would, at once, raise the institution from a philanthropic to a business enterprise.

Happily for perspiring humanity, the promoters of this most worthy enterprise, Messrs. Pellegrini, Kruls, Tornquist, Seeber, Malmann, Kirsch, Billinghurst and a host of others, too numerous to mention, have higher motives in view than mere personal gain and, as long as they work up faithfully to this programme, they can well afford to laugh to scorn all foolish inspectors who are so ready to see the mote in their neighbor's eye. Alas, poor human nature; for so it has ever been and so, I presume, it ever will be, as long as life is so constituted, as long as the world is a world. Or, as Longfellow more beautifully expresses it—

"As long as the river flows,
As long the heart has passions,
As long as life has woes."

Meantime, we understand that the Lord Mayor having passed the matter to the board of health committee of these gentlemen visited the baths last week, without notifying the company. Mr. Krüls, the treasurer, received them in full bathing attire and, after showing them over the whole establishment, was rewarded by their unanimous congratulations. Why has their official report never been published? Or, how is it that this affair, which should merit the utmost publicity, has been hushed up in so false and undignified a manner?

We call aloud for fair play, fully confident that publicity will serve not alone the best interests of the company, but also of the public whom it serves so well. Few establishments in Europe are better managed, the water being constantly running, while the entire bath is cleaned out and emptied one night each week. A swimming master is constantly in attendance, and no bad language nor impropriety in dress is for an instant tolerated.

F. H. M.

LAND LAWS IN PARAGUAY.

Buenos Ayres,
Jan. 19, 1891.

To the Editor of the STANDARD

Dear Sir

As you have always shown a kindly interest in the affairs of Paraguay, I hope you will not grudge some of your valuable space to a short extract of the new laws on agriculture and colonization passed by the Congress of that country during the past month.

They stand more or less as follows:—

By law of the 20th December it was decreed:—

That the annual sum of ($200,000) two hundred thousand pesos fuertes shall be devoted to the development of National Agriculture and Industries during a term of ten years from the date of the law.

This sum shall be employed in the annual distribution of prizes to the cultivators, producers and manufacturers who shall fulfil certain conditions laid down by the Government. The prizes are to be awarded for the cultivation of tobacco, coffee, cotton, sugar-cane, bananas, mani, rice, alfalfa, maize, pine-apple, oranges, lemons, vines and indigo; and for the manufacture of wines, woven and textile goods, oils, preserves, cigars and flour.

All machinery, etc., necessary for the above-mentioned industries to be imported duty-free during a term of ten years. An agricultural and industrial exhibition to be held at least once every two years on the occasion of the distribution of prizes.

The agricultural section of the National Bank shall supply agriculturists with such seeds and plants as are especially recommended for cultivation, the same being payable at cost price.

By the law of Dec. 22 authorization was granted to the Executive to encourage the formation of 'centros agricolas' on private lands, adapted to agriculture and in proximity to the Villa Rica railway or any other railways that may be built hereafter.

The contractor for the formation of such a colony shall undertake the following:—

1.—Within two years of the signing of the contract to establish in his colony a factory for preparing the agricultural products of same.

2.—To keep half the land adjudicated to the colonists under cultivation for a term of 3 years.

3.—To supply the labourers with dwelling, agricultural implements, animals for purposes of labour and breeding, seeds and keep for at least one year; the form of payment for these advances to be arranged privately between contractor and colonist.

4.—To sell or give to each family a lot of ground of at least 25 squares with option to buy another of the same size.

The said contractor shall enjoy the following privileges:

1.—A subvention of $200 fuertes which the National Bank shall pay him for every family, be they immigrants or natives, established in the colony as land owners after the first year, as a help towards defraying the expenses incurred in establishing the colony.

2.—Free passages for the immigrants coming to establish themselves in the colonies.

3.—Exemption of the Colony from all rates and taxes for a term of 5 years.

4.—All other privileges granted to immigrants by Art. 32 of the law on colonization.

The contractor shall further undertake to cultivate one of the six principal products viz: coffee, tobacco, ramie, cotton, rice, sugar, and besides these as auxiliary at least two of the following:—maize, mani, barley, pine-apples, bananas, indigo, mandiocs, etc.

The capital employed in each "centro agricola," including the instalment of the factory, shall not be less than $25,000 in order to enjoy the privileges enumerated above.

The Colonization Section of the National Bank shall have the right to see to the good management of these colonies, taking a direct part in the contracts that are drawn up with the colonists.

As no further comment is required to show how advantageous these conditions are towards immigrants as well as contractors for colonies in Paraguay, I have only to thank you beforehand for your kindness, and sign myself.

Yours sincerely,
Guarani.

Railway Items.

The express train that left the Central Station at 5.45 p.m. on Tuesday for the Tigre met with an accident two or three hundred yards from Olivos Station. The train was going at the rate of 44 miles an hour when a horse on the line caused the front wheels of the engine to leave the metals. The driver, with presence of mind, proceeded to stop the train gradually, and finally brought it to a stand still, whereupon many of the passengers, headed by Dr. Leopoldo del Campo, alighted and made their way on foot to their respective residences.

The passengers did not feel the derailment but were much puzzled with the clouds of dust which enveloped the train. Had the driver stopped the train suddenly, the consequences might have been serious.

Mr. Michael Tedin will have shortly to attend the Washington Railway Congress as special representative of the Argentine Government.

Messrs Vestel and Francotte have proposed to Government to construct the Grand Central Terminus, in which two years ago the Government was thinking of sinking one million sterling.

The Cia. Nueva de Tramways will in a few days open to traffic the Boedo, Plaza Constitucion and Paseo Colon section. The company have built three stations with very good stabling accomodation for the large number of horses required for the tramways. The contractors, Messrs. W. Morkill and Co., are to be congratulated on the activity with which the works of the concern have been pushed forward. The Company, though barely a year at work, are already doing a good traffic business, if we may judge from the appearances of the trams in Calle Callao. The concession is a splendid one, since the company's rails run in all directions, east, west, northand south.

We have received a letter from "Injustice" complaining of the attitude of the manager and secretary of the Rosario Railway in regard to the question of salaries. We cannot publish this letter for the simple reason that the public have little or nothing to do with the internal disputes of a railway company and its employees.

Next month Messrs Mackern and Shine open book stalls at the Central Station, one at the Northern and one at the Ensenada end of the platform.

EDITOR'S TABLE.

The STANDARD barometer made such a downward plunge yesterday morning before breakfast that we counted on the pleasure of an earthquake or a tornado before lunch; but, alas! for human hopes, dinner and even bed hour arrived without the wished-for commotion of the elements. Even the very barometers of the country have been thrown out of joint by the financial aberrations of the Government. The gold eagle fluttered up and down as if he scented something in the wind.

Cablegrams from Rio state that the Brazilian Government attaches special importance to the Chilian revolution and that it is abnormally alarmed at the progress of affairs on the West Coast. What can be the cause?

It is said that the lawmakers of the country are so clean sick of voting ruinous taxes and so done up with the heat in the capital that they will try to finish up everything by Sunday next. This does not seem possible; but we hope it may be done, as we also are rather tired of "nem con" taxation legislation.

There is an amusing line in one of last night's telegrams from Montevideo to the effect that, if necessary, the Chilian Minister there will call on the Government to force the new Chilian ironclad, the Admiral Condell, to remain there, as he has ordered her.

The Eolo was again full of the Argentine sporting element when she arrived here yesterday morning. They all left a lot of money behind them and looked as *loanly* as the Montevideo Government itself.

It is said that "the other side" is now preparing its Presidential Convention, which will soon come off. Where the "locus in quo" is to be we have not heard.

Some uneasy rumours from Entre Rios were flying about yesterday, but we believe there is nothing in them. The next row will be somewhere else.

The North American Normal School of this city, has been very fortunate in securing the services of the best known and most efficient of the Directors in the Argentine Republic. We are not at liberty just now to announce the name of this lady, and for good reasons, but will do so later on. Meantime, we congratulate the management of the School on the success that has attended their efforts in thus satisfactorily filling the vacancy caused by the withdrawal of Miss Morrow from the School and her return to the United States. The School will be opened, according to announcement, on the first Tuesday in February, and the new Directora will assume the duties of her post towards the latter part of the month. See the advertisement in another column.

Telegrams are detained at the River Plate Telegraph Office, Calle San Martin 287—

From London, for Remamant Griffin.
" Ravensburg. for Call Joos.
" Weingasten, for Bolton.
" London, for Juabipin.

The "To Let" papers are increasing at a marvellous rate on the windows of the town. It is curious to observe also how the bits of white paper are advancing from the outlying streets towards the very centre of the city, like a besieging army converging on it. People who were comfortably off a year or two ago are now forced to hang out the white flag to make ends meet.

One of our morning colleagues alluded gingerly yesterday to a "casa sospechosa" in Calle Chile; but we believe there was nothing alarming in it.

Our Montevidean colleagues display most childish and highly amusing glee over their turf victory on Sunday last, making a national hullabaloo about it, as the more feather-headed of the Paris papers recently did when the old Dame in Threadneedle Street borrowed a trifle from the Bank of France. By the way nobody has taken any notice of Ca o's big slip of the tongue in the Senate the other day when he called the Bank of England a *State* Bank!

Mr. E. G. Blaksley has sent in his resignation as chief of the Tipographical Section of the Land and Colonial office.

Dr. Davidson, editor of the *Defensa del Pueblo*, and Deputy Espinosa fought a sword duel yesterday, the latter receiving a slight injury in his right arm. It is to be hoped that the triangular controversy that gave rise to this incident will be now dropped.

Advices received to-day by the Minister of the Interior from Sr Lista, dated 10th November, state that he is at present about 200 miles from the mouth of the river Santa Cruz on the Atlantic, and only 17 from Lake Argentina. His expedition has had to fight against the terrible winds prevailing there at this season and also the tremendous currents in the rivers. However, everything is going on well, and to-day the Argentina Lake being explored by the boats Andina and Walicha will no longer be a mystery on our Argentine Atlas.

The most sensational event of the season will take place at the San Martin Theatre to-night, when the Water Pantomime will make its first appearance in America, North or South. Averse as we are to puffs preliminary, we will now say nothing further beyond remarking that we shall be greatly surprised if there be standing room even for a locust this evening, or for many nights to come, in the spacious theatre in Calle Esmeralda.

Mr. A. C. Brown, Manager of the Ensenada Railway, has conferred another boon on the travelling public by having granted permission to those enterprising gentlemen Messrs Mackern and Shine to place Book Stalls at the Central Station.

Mr. W.H. Hudson's relatives and friends in this country will read with pleasure the following paragraph from an English paper:— "A fortnight ago three young ladies were bathing at Shoreham. The sea was rather rough at the time, and, the old tale, one of the girls getting out of her depth, having walked or been driven over one of the dividing sections on the shore into much deeper water, the other two only being able to swim a very little, went to her assistance, and thus all three were in imminent danger of being drowned. Mr Morley Roberts and his friend Mr W. H. Hudson, both visitors from London, being fortunately near at hand, saw the danger of the girls, and at once rushed to their rescue. Mr. Morley Roberts plunged in, and after severe and exhaustive exertion happily succeeded, with the aid of Mr. W. H. Hudson, in saving their lives, the latter gentleman rendering invaluable aid in receiving the young ladies from Mr. Roberts, who was breast high in water. If this aid had not been rendered by Mr. Hudson, one young lady, at least, must have lost her life. If Mr. Morley Roberts and Mr. W. H. Hudson do not receive the medal for life-saving in this case, which it appears to me they deserve their brave action ought at least, I think, to receive some appropriate notice in your columns, as I venture to believe will be your opinion." We learn that both gentlemen have since received testimonials from the Royal Humane Society.

The Legislators over the water have more sense of humour than the collective wisdom here. The other day in the Chamber of Deputies at Montevideo an honourable member gravely declared that the favourable reaction on the Bolsa was due to the retrenchment contemplated by the Government. The whole House burst into a roar of laughter that lasted for several minutes.

Our ever welcome illustrated contemporary the *Sud Americano* gives a fine portrait of Dr. Kock in its last number: the great man is evidently not of a lymphatic temperament, which seems paradoxical. Also a portrait of the late Dictator of Paraguay, Lopez. The girl "Jugando al Aro" is a lovely specimen of humanity. The several sketches of the ruins of Cordoba after the recent inundations are very interesting.

We salute warmly our new contemporary the *Epoca*. If it keep up the spice and salt of its first issue, it is very sure to do well. Its vigorous attack on Cato's false financial dogmas goes straight home.

Another wonder. We were favoured with the following letter from Rosario yesterday:—

Dear STANDARD,

I have read with great interest the wonderful case related in your paper about a man being shot through the heart while on horseback, and sticking to the horse for a long time although dead. This case reminds me of another similar one that a witnessed in the year 1837. I was in Potosas (Brazil) at the time managing a plantation. One night in the month of February I was having dinner with some friends in the quinta in the Largo das Narangeiras. As it was very warm all windows were open. It was almost dark when we suddenly heard a shot quite close to. At first we were much startled, but soon settled down. Half an hour after the lamp was lit, and we all noticed a curious expression in the left eye of Councillor Jao Fica da Fonseca Freitas, who lost his right eye in a political row the year before. He was chewing a piece of pine-apple at the time, and as he kept chewing away at it, without moving, we thought he might be ill. Suddenly his hand fell on the table, and when we all rose and examined him closely, we found the man as dead as a nail. He had been shot through the heart, and nevertheless without uttering a word or a sigh he kept chewing a bit of pine-apple for nearly three quarters of an hour, and there is no doubt he died immediately the shot was fired, as the autopsy proved that the ball went through the heart.

Yours respectfully,
Plantation.

The Admiral Brown will be sent to the West Coast, to watch the row there, the moment she arrives, which will be in a week or two. The Patagonia is in too bad a state to go, owing to the perpetual bumping on the bottom of the Riachuelo. One of the new Argentine ironclads will arrive here from England next month, and the other in March.

Another Government experiment in colonization is about to be made in Chuput Territory. The chances are it will fail, like all previous Government attempts at bucolics, banking railway management etc., etc.

We hear that an English Ladies' Club is being got up here. It is a startling innovation in this country, but we believe has taken some root at home and in the United States.

The rotten Free Banks are to be kept open, instead of being shut up. The latest about the Santa Fe concern is that the National Bank will put it on its legs with a loan of $3,000,000. The old tune. That's the way the money goes—never to return.

The never-to-be ended Riachuelo Works Committee report that one of their dredges has come on a bed of hard rock, and finds it "rather difficult to raise!" Dredging hard rock is a feat we have never heard of before; but everything is possible in this grand country.

There is a whisper that Congress will turn its blind eye on the proposal for a reduction of Government salaries.

A Catamarca Senator is in trouble for killing a man. The honourable legislator was paying attention to the sister of the dead man, who objected, and hence the fatal fight.

December 18th is our latest date from Panama. The Bogota Senate has voted the Canal Bill, and the Representatives are expected to do the same. The Cauca Railway, the Panama link in the Three Americas line, is now launched. Mr. Cherry has got the concession, which is now ripe for launching in Europe.

The Montevidean Government is going to pay the cost of Carnival this year. More fool it.

Advices from Corrientes say there is a torrent of public opinion in that usually somnolent place in favour of entering Dr. Torrent to run for the Vice Pres

THEATRES

Curativa Pasta BUCHANAN
(COPY)
Posta Montes de Oca, Mag.
Debo manifestar el resultado de la pasta. La he probado de dos modos distintos, primero con una medida á noventa, bañé una majada que era bastante picada, el resultado fué imejorable. Segundo bañé una majada con una medida á cincuenta de agua, el resultado fué magnifico, pues no tuve perdida ninguna, asi el remedio es reconocido como el mas poderoso de los que se encuentran hasta la fecha; mas de ser sin peligro, es económico y facil su aplicacion. THE DIPPING SEASON.

Under the above heading, the following appears in a recent exchange:—

"Speaking of Dips themselves, perhaps the most significant feature in their "History is the way that the Old fashioned have been superseded by the more "Modern and Scientific preparations. As Tobacco gave place to the various "Fluids" "and these again to the "Powders" so we find to-day these latter retiring before the "new Paste Dips. Of the many recent experiments we have witnessed in England and "the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping "abreast of the times."

"The advantages of the Paste over the "Powders" are many:—

"It does not make the wool dry and harsh, but leaves it soft and silky, giving a "healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to "prepare there, being no waste nor loose "Powders," to fly about.

"As it is prepared with Carbolic it is lighter than the "Powders" and does not "so readily settle to the bottom, and for the same reason it is not injurious to the "hands. It goes in less space and is a more concentrated form than the "Powders." "thus effecting an economy in transport and labour. It costs less, and will mix with "any kind of water. In a word, it is the "Powders," cleared of their many inherent "defects, with their curative properties and good qualities preserved and increased. "Until the manufacturers make some better discovery

"HAYWARD'S PASTE DIP
IS
"THE DIP OF THE CENTURY."

Sold in cases to make 800 and 1,600 English gallons.
Samples will be forwarded gratis to any part of the Camp, and if desired, the cure undertaken by practical dippers, free of charge.

EXCHANGE RATES—
England ..... 15/2d.
France ..... 1.66 fcs.
Germany ..... 1.33½ marks
Gold equivalent 301.00

Wednesday, January 21st.

As was expected, there was a mild reaction in gold to-day, caused by a weakening of exchange, the latter being attributed to some large taker having entered the market and operated freely for the French mail leaving to-morrow. Thus, though exchange yesterday was offered freely at 484d. and 5.10 francs, without finding takers, and passed early to-day as high as 5.08 and 1.68 francs, in gold and paper respectively, these rates soon gave way under pressure, bringing as a consequence a rise in gold. The latter opened at 303.50 and 304, rose to 310 and closed at 309 buyers. The speculation in Constructors and Catalinas was brisker than ever, and marked by a slight rise in rates, in spite of the rise in gold; but it was noted that Cedula prices gave way sensibly, which seems to point to diminishing hopes of an agreement being come to between the Committee representing the holders and the Government, and naturally greater probabilities of the matter having to be taken to the Law Courts to decide. This would mean war to the knife, which would scarcely suit either party, and hopes are still entertained that matters will not be pushed to extremities whilst there is any possibility of an arrangement being arrived at. As compared with yesterday's prices there was a falling off to-day of nearly ¼ per cent all round.

The following is a summary of operations effected this afternoon during the first ring:—

It was known to-day that the legislative sanction given to Minister Lopez's 2 per cent per annum tax on deposits in private banks has created a very bad impression in London. This bad impression may affect our credit and give rise to much distrust. We may expect to hear further news in this respect in the next two days.

The National Executive sent to-day to Congress a message and bill for the repeal of the City Improvement Works Lease. It is understood that the Argentine Government shall pay the company the sixteen million dollars, with interest, which they advanced on lease of the Works. The company are to finish the Works, which will require about eleven millions of dollars for completion. The Works are to be immediately handed over to the Government and Congress is asked to issue 5 o/o bearing bills to the amount of $33,750,000 m|n, to be delivered at 80 o/o of their face value. The service of the loan will be guaranteed by the water and sewage taxes levied. It is expected that those taxes will have a surplus of at least two million dollars. These are pleasant prospects.

Messrs. Irish and Olmi, the well-known auctioneers of Calle Maipu, have removed to the premises formerly occupied by Messrs. Senillosa in Calle Piedad, between San Martin and Florida.

It was reported to-day that a well-known broker had placed exchange in the Mount yesterday and sold the gold, some $50,000, for Saturday next at 299, which has been the lowest rate quoted. To-day there were many buyers of gold on time reported, and few or no sellers.

It was known to-day that the National Government is trying to secure a credit in Europe for the National Bank of £2,000,000 stg. to draw against, as at present neither the National nor Provincial Banks are drawers.

Whilst the National Bank is looking towards Europe for a little financial aid, it has been in its turn approached by the Provincial Bank of Santa-Fe, which asks for a round 3 millions to get on its legs again. Mr. Terrosa, the Santa-Fe Finance Minister, had a conference with Dr. Lopez yesterday, and it is said with the result that the loan will be done.

Cedula holders were most anxious today to know what had been done by the committee with the Government yesterday and if any settlement had been arrived at that would conciliate both interests. Dr. Pereira, however, maintained the greatest reserve on all that had passed at the meeting, though he allowed it to be understood that the committee were dissatisfied with the result. Some parties said that the Government's action was confined to an exposition of the absolute necessity of the conversion scheme being carried out, and an offer to facilitate all the data that the committee might require with regard to the state of the bank. It is easy to understand the chagrin of the committee at such an offer when it is reflected that the only basis on which they will treat of conciliation means the repeal of the law. Another meeting of the protesting holders is on the tapis, and then full explanations may be expected.

The *Porteño* of Bahia Blanca complains that in that neighbourhood everything runs to extremes. If the weather keep fair it degenerates into a drought, and if wet developes into a semi-deluge, causing all the consequent inconvenience and losses to the farmers and estancieros. The late rains have already caused some damage,

The following is a summary of the business effected in stocks during the second ring:—

National Bank Shares—
January 22nd 1400 at 104-105-104.50 105

Jan. 22nd O 47,000 at 52.50-99

The *Montevideo Times* of the 20th inst. says:—

"The week has opened very busily, and not only has the reaction of last week shown itself steadier than we anticipated, but it received additional impulse to-day from the latest rumours of successful loan negotiations, which, whether solidly founded or not, have taken a more concrete form than usual, and have decidedly influenced the market. The consequence was a lively business all round at materially improved values.

"118,700 dollars (nominal) Obligations of the National Company received in payment for lands, were cremated on Saturday.

"Two thousand five hundred arrobes of wool were sold in the Central Station and Feria yesterday at $3.50 to $3.60 superior, $3.20 to $3.45 good, $2.90 to $3.10 ordinary.

"The Nuevo Paysandu saladero has sold five thousand qq. of jerked beef, "bonita y habanera," for Cuba at thirty-six reals, to be delivered until the end of February. A Cerro saladero has sold a lot of fresh tallow for exportation at thirteen reals.

"The Eolo brought on Sunday from Concordia seventeen hundred dollars to Diaz and Taranco, from Fray Bentos forty-eight dollars to J. Susviela, from Gualeguaychu 602 dollars to P. Pardone, from Montevideo 6500 dollars to Banco Nacional, from Buenos Aires two thousand dollars to B. Tejada. Total 10,850 dollars. The Rivadavia brought yesterday from Salto 12,717 dollars to the National Bank."

La Plata advices bring the important news that Dr. Drago, the Attorney-General of the province, is about to bring an action against Dr. Luis V. Varela for recovery of 835,250 mjn, the sum paid by the Provincial Government to Dr. Varela for a part of the Duraňona lands. The matter has been already made public by Engineer Huergo's investigation and Dr. Varela's letters; and although it is not yet possible to say where the blame lies, there can be little doubt that the Duraňona business was little short of a public scandal. Dr. Varela figures as the defendant only as a matter of form, since the leading idea of the action is to bring about a thorough and searching investigation, in which all the parties interested will be put on their defence.

It is rumoured that Dr. Lopez, in view of the great abundance of exchange offered and scarcity of takers, will revoke the decree demonetizing foreign gold coins, which will permit of the importation of gold to pay for produce. As matters stand at present the business in produce is almost paralysed, due to the great difficulty exporters meet with in placing their exchange.

The report of the Banco de la Bolsa to be presented at the ordinary general meeting to be held on the 26th inst. has been handed round. It corresponds to the four months expired since last meeting, and shows that the capital has been reduced from 7,866,850 dollars to 5,522,800 dollars, and the working expenses from 4435 dollars to 2900 dollars per month. Four directors and one substitute will be voted for to replace Messrs. Bunge, Arana-gaveytia, Bernasconi and Zumborain, who retire.

A leading morning colleague announces the discovery of another scandal in the Provincial Mortgage Bank. It seems that Mr. Yofre a short time ago purchased a camp property for 50,000 mjn, but on proceeding to inquire into the title deeds it was discovered that there were no less than five mortgages on the camp, summing up to the round amount of a million dollars. It is needless to say that such an enormity as this demands a searching investigation, as the grant of a million dollars on a property sold for 50,000 mjn is simply too candalous to be overlooked. No doubt some explanation will be forthcoming, and it is the bounden duty of the Government or the board of the bank to see that the matter is cleared up.

The following are the killings to date in the Montevidean "saladeros"—

	20th inst.	Total head
Heraclio Pinehrua		3182
Vellozo and San Martin ...	501	4,335
Federico Cibils	512	1,797
Apesteguy hnos.....		2,306

E. Monret and Co.....		1,725
Castellanos and Co		6,667
O. Soriano and Co.....		4,728
Lesca and Co.....	592	592
Total	2,002	36,511
Same date of 1890.....		93,050
Same date of 1889.....		145,492

Mr. Ernesto Brandt's valuable cattle circulars arrived from Rosario to-day, corresponding to fortnight ended Dec. 16th. The camps of Santa-Fe, which had just begun to recover from the effects of a protracted drought, are now laid bare by the locusts to such an extent that stock is being removed all over the province, good camps being in great demand. The arrivals of animals in the Matadero amounted to 5100 head of cattle and 2934 sheep, the prices being:

Beef.....	9 to 15c. per kilo
Mutton (per carcase)	$2 to 3 mjn
Lamb " "	$2.50 mjn
Cow and sheep tallow	16 cents per kilo
Fresh cowhides.....	22 to 23c. per kilo
Sheepskins(pelados)...	65c. each

The prices current for hides, etc., are as follows, subject to variation through the oscillations of the gold premium:—

Wool (per 10 kilos) ...	$6 to 7
Cueros vacunos (per 10 kilos) ...	5.00
" becerros do. ...	4.50
" mal derechos do. ...	2.50
Hair	9.00
Cueros lanares estacion (per k.)	0.60
" corderonos ..... do.	0.45
" pelados..... do.	0.25
" corderitos (per dozen)...	2.00

The following amounts of paper dollars have been burned by the "Caja de Conversion:"—

Old emission of National Bank...	2,200,000
Old emission of Provincial Bank	118,401
Old emission of Provincial Bank guaranteed	109,800
Treasury bills.....	26,600
	2,454,000

The following operations were effected in the Montevidean "Centro Comercial" yesterday (20th inst.):—

Gold—
For cash $39,250 opening at 126, closing at 128
January 21st 4,000 at 128

National Bank Shares—
For cash 1580 at 28 to 28½
January 24th 50 at 29
January 21st 550 at 28½ to 28¾

After-hours—
Gold—
For cash 800 at 127½
January 21st 2000 at 128

National Bank Shares—
January 24th 300 at 29½
Jan. 21st 400 at 28½ to 28¾

Comp. Nacional de Credito—
January 21st 150 at 5½ 6

National Bank Shares (second ring)—
January 21st 1000 at 29 to 29½
For cash 210 at 29½ to 30
January 31st 200 at 30
February 28th 50 at 32

The movement in the Central Produce Market yesterday (January 20th) was as follows:—

Arrivals: 48 wagons containing 95,017 kilos wool, 5,624 do sheepskins, 2018 do cowhides, 232 do horsehides, 70 do hair, 10 do nutria skins.

Messrs. Duggan Bros. sold yesterday a lot of borrega wool belonging to Mr. L. Scully at 9.10 mjn; also a large lot of same for account of Duggan Bros. at 8 30 mjn per ten kilos.

Messrs. Luis Godoy have sold by auction the following properties:—

Wolseley Sheep Shearing Machine Company, limited.

Cabaña del Rincon,
Propiedad del Señor Don Tomas Bell,
Estacion Pereira, 18th Sept. 1890

Messrs. Agar Cross & Co.

Dear Sirs,

I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully: it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.

I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best patents I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly,
WILLIAM RIDDICK.

The latest advance in Dips

HAMILTON & CO'S [Concentrated non-poisonous Fluid
SHEEP DIP

Used extensively throughout the world. SURE CURE for fly, tick, maggots, Scab, mange etc. It is a great protection to sheep in wet or cold weather, as renders the coat waterproof and impervious to rain; will prevent fly striking.

ONE GALLON mixed with cold water will dip 100 sheep,

Veterinary Medicines.

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—

Estancia Las Rosas,
F C. Central Argentino,
10th Jan., 1891.

. . . I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS LUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider, splendid.

Yours truly,

Keating's Cough Lozenges.
Keating's Cough Lozenges.
Keating's Cough Lozenges.
Keating's Cough Lozenges.

"94, Commercial Road, Peckham, July 12, 1889.

"Dear Sir,—I am a poor hand at expressing my feelings on paper, but I should like to thank you, for your lozenges have done wonders for me in relieving my terrible cough, Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive and getting on) well-performed at St. Bartholomew's Hospital for abduct, or paralysis of the vocal chords, no one could possibly have had a more violent cough; indeed
